HARVONI®
ledipasvir/sofosbuvir
90 mg/400 mg tablets

Here for you at every step

Let us know how it's going

The road to getting started on treatment can take a few different turns. And we want to give you support that's just right for your needs.

Let us know where you are in the process so we can better help with your next steps:

- ☐ I am waiting for insurance approval so I can begin treatment
- ☐ I have been approved for treatment but haven't acted on it yet
- ☐ I was not approved for treatment by my insurance company
- ☐ I have started taking HARVONI
- ☐ I have completed HARVONI treatment

Support as you move forward

At any stage of working toward your goals, you can call [HARVONI Support Path®](#) at **1-855-7-MYPATH** (1-855-769-7284) for help.

- **Live specialists** are available to help you navigate [insurance coverage](#) and explain the appeals process (if necessary, approval that is initially denied may be reconsidered upon appeal).
- **Nurses are on call 24/7** to answer any questions you may have about taking HARVONI.

HARVONI is a prescription medicine used to treat chronic (lasting a long time) hepatitis C genotype 1 infection in adults. It is not known if HARVONI is safe and effective in children under 18 years of age.

Important Safety Information

What should I tell my healthcare provider before taking HARVONI?

- If you have: liver problems other than hepatitis C infection; severe kidney problems or are on dialysis; any other medical condition; or if you are pregnant or breastfeeding or plan to become pregnant or breastfeed. It is not known if HARVONI will harm your unborn baby or pass into your breast milk.
- If you take amiodarone (Cordarone®, Nexterone®, Pacerone®), rifampin (Rifadin®, Rifamate®, Rifater®), St. John's wort or a product that contains St. John's wort. Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements. HARVONI may affect the way other medicines work, and other medicines may affect how HARVONI works.

You should not take HARVONI if you also take other medicines that contain sofosbuvir (SOVALDI®).

What are the most common side effects of HARVONI?

Common side effects include tiredness and headache.
