

Ask your doctor.

Your next appointment with your Hep C specialist could bring you one step closer to a cure. Here are five key questions to ask:

- Considering my medical history and liver condition, is HARVONI a good option for me?
- How is HARVONI different from other Hep C treatments?
- What side effects can I expect?
- What are my next steps before starting treatment with HARVONI?
- How will I know I'm cured?

**Talk to a HARVONI educator
at 1-844-READY41 (1-844-732-3941)
for more information.**

You should not take HARVONI if you also take other medicines that contain sofosbuvir (SOVALDI®).

What are the most common side effects of HARVONI?

Common side effects include tiredness and headache.
